

## GOD BLESSED AMERICA ONLY ONCE

God blessed America with a land rich in mineral wealth to support a growing population with big dreams.

God blessed America with a population rich in creative wealth, capable of turning its land and dreams into a paradise of opportunity and growth.

God blessed America with a constitution rich in principles of freedom of expression and moral leadership to help make our dreams come true.

God blessed America with a free society rich with the entrepreneurial spirit so necessary in order to build a great nation

God blessed America with a history rich with moral purpose and pioneering sacrifice.

God blessed America with a fighting spirit to preserve all that we have and to share our democracy with the rest of the world.

God blessed America with all the races of the world so that we might have a society that gives the best mixture of ethnic blood to our country's needs.

God blessed America with founding fathers who saw how blessed we were and built a legal and political system based upon the rights of the individual to live a life of freedom, opportunity and happiness.

God blessed America with great mountains, rivers, lakes and fertile valleys filled with wildlife that cannot be replaced.

God blessed America with clean air and water and unpolluted land that cannot be replaced.

God blessed America only once. Now it's up to America to bless God with the realization that we will not let him down by selfishly destroying all that he blessed us with.

Please, God, bless America again by making our citizens aware of how fragile our blessings are and how important it is for all of us to clean up our act -- physically -- morally -- financially -- and environmentally.
